G-THIONE MAX

Liquid Glutathione Amino Acid Dietary Supplement (47 servings)

G-THIONE MAX is a breakthrough new approach to glutathione supplementation. It features, for the first time in a liposomal solution, S-acetyl L-glutathione (SAG), combined with reduced glutathione (GSH), and N-acetyl L-cysteine (NAC). This formulation utilizes three ways to support glutathione—intracellular with SAG, intracellular biosynthesis with NAC, and extra/intracellular (systemic) support with GSH.* Moreover, the liposomal S-acetyl L-glutathione in this formula provides a double layer (acetylation + liposomes) of protection to the glutathione molecule, further supporting its intracellular bioavailability.*

- **Supports intracellular and mitochondrial antioxidant processes***
- **Supports healthy brain function***
- **Supports the liver and detoxification activity***
- **Supports balanced immune system function***

G-THIONE NEW

Amino Acid & Herbal Dietary Supplement (90 servings)

G-THIONE NEW is a first-of-its-kind formula designed to support the synthesis and recycling of glutathione, which is a key factor in cellular and mitochondrial antioxidant processes.* It strategically combines complementary ingredients, such as selenium, N-acetyl L-cysteine, and standardized extracts of cordyceps and gotu kola, that have cohesive actions geared toward optimizing intracellular glutathione.*

- **Supports the metabolism of intracellular glutathione***
- **Supports glutathione activity and related enzymatic processes***
- **Supports liver detoxification and conjugation pathways***
- **Helps support the ratio of reduced-to-oxidized glutathione***

MITOLIPIDS

Vitamin & Herbal Dietary Supplement (33 Servings)

	Amount Per Serving	%Daily Value†
Calories	30	
Polyenylphosphatidylcholine (PPC) (from soybean lecithin)	2.7 g	**
Total Fat	3 g	4%†

† Percent Daily Values are based on a 2,000 calorie diet. ** Daily Value not established.
All Formulas Meet or Exceed cGMP Quality Standards.

MITOLIPIDS provides 2.7 g of pure polyenylphosphatidylcholine (PPC) per serving plus the highest concentrated source of 1,2 DLPC (dilinoleoylphosphatidylcholine). Unlike most other phosphatidylcholine products on the market, MITOLIPIDS contains no other phospholipids, aside from PPC and DLPC, that may compete for absorption. Studies suggest that PPC ingestion increases choline levels in the blood and brain and supports acetylcholine synthesis for healthy neuronal and cell function. Daily supplementation of PPC may help maintain healthy brain and liver function, healthy cholesterol levels already within the normal range, and gastric mucosal protection. PPC is widely used to support healthy aging.*

- **Supports Healthy Cell Membrane Composition and Normal Membrane Repair Mechanisms***
- **Supports Cell Membrane Fluidity***
- **Supports Liver Health and Function***
