

MAX VOLTAGE MALE

Dietary Supplement (60 Servings)

MAX VOLTAGE MALE is a combination of three targeted nutritional formulas conveniently dose-packaged and providing comprehensive nutritional support. The formulas include Albion® chelated minerals; activated B vitamins; Quatrefolic®; botanicals; and fresh, pure, third-party assayed fish oils. Calcium is provided as DimaCal® dicalcium malate and calcium ascorbate or as microcrystalline hydroxyapatite concentrate (MCHC), DimaCal® dicalcium malate, and calcium ascorbate.

ActivNutrients® without Iron: A high-quality, hypoallergenic, proprietary multivitamin/mineral blend featuring activated vitamins, including folate as 5-MTHF (5-methyltetrahydrofolate), and patented Albion® chelated mineral complexes in easy-to-swallow vegetarian capsules.

OmegaPure 600 EC™: Is International Fish Oil Standards (IFOS) five-star certified, which assures the highest level of purity, stability, and potency in fish oils. Each fish-gelatin-based softgel provides 600 mg of EPA and DHA. The softgels are covered with a GRAS-certified enteric coating so that they are easy to swallow and the EPA/DHA content is optimally absorbed. EPA and DHA from fish oil promote wellness by supporting cardiovascular health, cytokine balance, joint health, and brain and nervous system function.*

Oraxinol™: An innovative blend of ORAC botanicals. ORAC (oxygen radical absorbance capacity) is a rating developed by the National Institute on Aging to measure antioxidant capacity. An ORAC rating of 6000 µmol TE (trolox equivalents), as found in two capsules of Oraxinol, has been shown to have the antioxidant equivalent of five to nine servings of fruits and vegetables.*

- **Provides Foundation Micronutrition for a Variety of Protocols***
- **Supports Improved Dietary Nutrient Intake***
- **Provides Antioxidant Support***

Each packet contains: 2 ActivNutrients without Iron capsules, 1 Oraxinol capsule, 1 OmegaPure 600 EC softgel.

T-RICK

Liquid Herbal Dietary Supplement (47 servings)

T-RICK Is an emulsified micronized formulation that delivers a concentrated source of curcuminoids (standardized to 95%) combined with black pepper extract in a pleasant-tasting liquid. Micronization reduces particle size to promote absorption, and black pepper extract is known to significantly enhance curcumin bioavailability.* This unique formulation elevates curcumin supplementation for optimal patient outcomes and dependable results. Turmeric, a source of curcumin, has been used for around 4,000 years to support health and wellness, and modern science confirms that curcumin has a wide array of health benefits.*

3 OMEGA

Emulsified Omega 3 Fatty Acids with Vitamin and Mineral Cofactors (31 servings)

3 OMEGA is a unique formulation that delivers 950 mg of omega-3 and -6 fatty acids in every tablespoon. This product is prepared using an advanced emulsification process which creates micronized structures that increase the surface-to-volume ratio of particles to make them more available to enzymatic action.* To optimize absorption, fatty acid metabolism, and overall system support, this formulation is specially emulsified, and vitamin and mineral cofactors and the amino acid taurine are added.* This pleasant-tasting liquid is ideal for serving flexibility and for those who cannot take softgels.

Endocalyx Pro

Dietary Supplement by **Microvascular Health Solutions (30 servings)**

Endocalyx Pro is a patented formula that has been clinically shown to improve the health of the transparent lining inside the capillaries. Ingredients include a specific synergistic group of organic fruits, vegetables, and seaweed—ingredients found from the corners of the earth where people are known to live longer than that of people in North America—that can help revitalize your endothelial glycocalyx and promote healthy capillary health. Three classes of compounds include:

Polysaccharides that enable repair of damage to the glycocalyx. Polysaccharides are long sugar chains that can interact with proteins and other molecules of the glycocalyx to restore its protective structure.

Amino sugars that enable the production of more glycocalyx. Amino sugars are the precursor for polysaccharide biosynthesis. They enable the cells of the vessel wall to produce more glycocalyx polysaccharides and regenerate the body's ability to produce more of the protective gel.

Suggested use: Take 4 capsules daily, or as directed by your Healthcare professional.

Storage instructions: Keep closed in a cool, dry place out of reach of children.

Warning: Consult your healthcare professional before use if pregnant, nursing, taking medications, or for any use by minors. Do not use it if the safety seal is broken or missing. **KEEP OUT OF REACH OF CHILDREN.** This product is not intended to diagnose, treat, cure, or prevent any disease. For nutritional use only.

N-OX

Liquid Amino Acid & Herbal Dietary Supplement (94 servings)

N-OX is an advanced combination of carefully selected ingredients that work together to affect NOS (nitric oxide synthase) activity and intracellular energy production.* It also influences the related production of cell-signaling molecules and oxidants.* This formulation takes advantage of the compounding and complementary actions of its ingredients to deliver a truly effective formula backed by a decade of successful clinical use.* N-OX is an excellent choice for individuals needing immune balance, brain function, and exercise support.*

Suggested use: Take 1 teaspoon 1-2 times a day, or as directed by your healthcare professional.

MITOLIPIDS

Vitamin & Herbal Dietary Supplement (33 Servings)

	Amount Per Serving	%Daily Value†
Calories	30	
Polyenylphosphatidylcholine (PPC) (from soybean lecithin)	2.7 g	**
Total Fat	3 g	4%†

† Percent Daily Values are based on a 2,000 calorie diet. ** Daily Value not established.
All Formulas Meet or Exceed cGMP Quality Standards.

MITOLIPIDS provides 2.7 g of pure polyenylphosphatidylcholine (PPC) per serving plus the highest concentrated source of 1,2 DLPC (dilinoleoylphosphatidylcholine). Unlike most other phosphatidylcholine products on the market, MITOLIPIDS contains no other phospholipids, aside from PPC and DLPC, that may compete for absorption. Studies suggest that PPC ingestion increases choline levels in the blood and brain and supports acetylcholine synthesis for healthy neuronal and cell function. Daily supplementation of PPC may help maintain healthy brain and liver function, healthy cholesterol levels already within the normal range, and gastric mucosal protection. PPC is widely used to support healthy aging.*
