G-THIONE MAX

Liquid Glutathione Amino Acid Dietary Supplement (47 servings)

G-THIONE MAX is a breakthrough new approach to glutathione supplementation. It features, for the first time in a liposomal solution, S-acetyl L-glutathione (SAG), combined with reduced glutathione (GSH), and N-acetyl L-cysteine (NAC). This formulation utilizes three ways to support glutathione—intracellular with SAG, intracellular biosynthesis with NAC, and extra/intracellular (systemic) support with GSH.* Moreover, the liposomal S-acetyl L-glutathione in this formula provides a double layer (acetylation + liposomes) of protection to the glutathione molecule, further supporting its intracellular bioavailability.*
